## REQUEST INFORMATION

17 November 2009 - story by materia

Native Bamboo, made by GKD, is a fabric in which bamboo and stainless steel are processed. The fabric consists of stainless steel rods of 3 mm to 2 mm thick interspersed with bamboo stalks. Depending on the implementation, the ratio varies between the

number of stainless steel rods and bamboo stalks.

A panel is a maximum 3 m wide and 15 m long and both horizontally and vertically to confirm. The bamboo metal mesh is suitable for in and outdoor applications.
