19 December 2017 - story by materia

Piñatex is an innovative natural textile made from pineapple leaf fibre. The leaves are a by-product of the pineapple harvest, so no extra land, water, fertiliser or pesticides are required to produce the raw material.

The pineapple leaves are gathered, decorticated to remove the fibre and processed into a nonwoven textile in the Philippines and then sent to Spain for specialised finishing.

Piñatex has the PETA-Approved Vegan logo, which certifies that no animals are harmed and no animal products are used in the making of the material.

MATERIAL PROPERTIES

SENSORIAL		TECHNICAL		TAGS
GLOSSINESS	VARIABLE	FIRE RESISTANCE	MODERATE	BIOBASED ECOLOGY

TRANSLUCENCE	0%	UV RESISTANCE	GOOD
STRUCTURE	CLOSED	WEATHER RESISTANCE	GOOD
TEXTURE	COARSE	SCRATCH RESISTANCE	GOOD
HARDNESS	SOFT	WEIGHT	LIGHT
TEMPERATURE	MEDIUM	CHEMICAL RESISTANCE	MODERATE
ACOUSTICS	MODERATE		
ODOUR	NONE	RENEWABLE	YES
